Westside Community Schools 2023-24 Demographic and Statistical

Summary

The Westside Community Schools' official K-12 enrollment for 2023-24 is 6,165—an increase of 0.69 percent from the previous year and a 3.97 percent increase from the 2019-20 school year.

The diversity of the District's student population continues to increase, as it has for nearly two decades. In 2000-01, approximately 90 percent of Westside students identified themselves as White; in 2023-24, that number stands at 65.24 percent. Likewise, socioeconomic diversity has increased in the same period, with the percentage of students qualifying for free or reduced-price meals rising from roughly 23 percent of enrollment in 2007-08 to 36.37 percent this year.

Other highlights:

- Students qualifying for special education services account for 15.34 percent of the student population. That figure is a slight increase of the previous year of 14.34 percent.
- English Language Learner enrollment remained steady, slightly increasing from 3.77 to 4.04 percent of total enrollment.
- Parents submitted over 713 applications on behalf of prospective students seeking admission to Westside schools under the State of Nebraska's Enrollment Option program for 2023-24. Because applications are accepted only when there is sufficient capacity in requested grade levels, buildings, and programs, we approved just over 40 percent of those applicants through August.
- Students enrolled through the Option Enrollment Program represent 34.39 percent of the District's total enrollment.
- Hispanics represent 12.3 percent of the District's total enrollment and have surpassed African Americans as the largest ethnic group.
- African American enrollment had a slight increase and represent 9.8 percent of the student population, up from 9.31 percent.

•

About the Numbers

October 1 is the new official collection date for fall reports to the Nebraska Department of Education. All data contained in this document are based on the October 1 collection data and derived from those fall reports—most often the October Snapshot or Special Education Snapshot. If some figures appear to conflict, it is likely because some totals are calculated differently to include different combinations of students, depending on the report; in those cases, we have used an asterisk to identify and explain those conflicts. Finally, in some instances, percentages may total slightly higher or lower than 100, due to rounding.
