

Respect

By: Calvin

We all should have justice
United we stand
We need to work together
Hand by hand.

So show some integrity
Let there be diversity.
And for our country let us defend
So we don't just give up
And don't let it bend.

And keep the stick straight
And please do not hate.
Doesn't matter if you're rich
Doesn't matter if you're smart
What matters is
Your perfectly made heart.

Show some fairness
Show some kindness
And you will see how justice fits.

Spread kindness like confetti
Make some friends and be together like spaghetti.
No more discrimination
Make this a beautiful nation.
