

# Intent to Participate in Extended Campus Learning, 2020-2021

As a District, we believe that the best place for students to grow academically, socially, and emotionally is at school with their peers and our dedicated staff. We realize that for some families, we recognize there are circumstances that make being on campus very difficult. For families who are required for medical reasons and for those who wish to continue at-home, extended campus learning during the 20-21 school year because of concerns surrounding COVID-19, the following process will be in place:

1. Families will complete this "intent to continue extended campus learning" form between July 13 and July 23. If a family moves into the district after this date and desires to participate in extended campus learning, they will complete the form at the time of registration. A separate form should be completed for each child.
2. When filing for extended campus learning, the family is committing to at least one academic quarter of extended campus learning; this is to assist with staffing, planning, and grading. A determination will be made during the first quarter if extended campus learning will continue second quarter, at which time another intent to participate can be filed.
3. Attendance will be taken daily, and school/state attendance policies will be followed.
4. Students who are attending school on campus and who become ill or are asked to quarantine for 14 days or less will continue to work with their assigned classroom teacher following traditional illness procedures and policies. Illnesses beyond 14 days will be handled on an individual basis, starting with a conference with the building principal. Reminder: This form is intended only for students who will be committing to extended campus learning from August 18, 2020 until October 15, 2020.

Please see this form for additional information about what extended campus learning will look like for the first quarter: <https://tinyurl.com/y96m68nm>

Your answer

Please indicate your reason for electing for extended campus learning during the first quarter of 2020-21.

- ☐ The student I am completing this form for is immunocompromized
- ☐ Someone in my household is immunocompromized
- ☐ Other:

As a reminder, filing for extended campus learning is a quarter-long commitment. While a learning plan will be provided by the District, please briefly describe how you will support learning at home. This is an August 18th to October 15th commitment.
